

# Specific hygiene measures at Sèvres Saint Germain in response to the pandemic

Our Hygiene Referent Coordinator trains all employees in the new practices and ensures that all procedures are followed daily.

Our staff has received specific training to protect themselves and you.

If one of our employees shows symptoms, he or she will notify our referrer and will not go to work.

All of our staff take particular care in the maintenance and disinfection of the equipment and all contact points (handles, switches, control buttons, etc...) which are disinfected several times a day.

On request, if the pharmacy next door is closed, we will provide you with a mini dose of gel and a mask for your trips.

UA Plexiglass protective screen has been installed at the reception desk in order to respect the distance to our receptionists.

Greet from a distance without contact.

All of our staff wear masks when they move around the hotel and we count in return on your civilmindedness to respect the gestures that are barriers within the hotel, for the well-being of all.
